About Bullish Apes

Bullish Apes is the most **BULLISH** token on BSC!

It's not an average meme token so you won't find here

neither golden mountains nor false promises.

BULLISH facts only. We won't promise you things

we can't accomplish. What to expect here?

Doxxed and active team, transparent actions, lifetime

promotions from our partners and the **BULLISH** growth.

And on top of all the above big rewards in BUSD paid

to your wallet automatically from each transaction.

Doesn't it sound **BULLISH**?! Buy now or regret later.

Tokenomics & Supply

We tax each transaction with 13% fee

6% will go to give all of you BULLISH BUSD dividends.

6% for the most BULLISH marketing you have ever seen.

1% will be used to keep the price floor stable for the BULLISH growth.

On the launch day we will have **an extra 20% sell fee** that will go straight to rewards and reduce each day by 1%.

It's the most BULLISH way to minimize sales.

And as a result you will receive an insane **26% BUSD rewards** every time someone sells.

We also have anti-whale function (max transaction and max wallet restriction) to avoid dumps.
